Overview

Software Developer with hands-on experience in web and mobile application development, Angular migration, client interaction, and real-time application support. Experienced with React.js, Angular, React Native, Expo, and Playwright testing. Worked on real-world applications including construction and project costing, restaurant costing, and customized business management systems. Experienced in understanding client requirements, resolving support requests, troubleshooting application issues, and delivering reliable, user-friendly solutions. Strong problem-solving skills with a focus on application quality, continuous learning, and staying updated with modern technologies and industry trends.

Professional Experience

Rytcost Software Solutions

July 2025 – Dec 2025

Software Developer

Bengaluru, Karnataka

- Ahara-Mulya: Developed and maintained web applications using React.js and mobile applications using React Native with Expo for restaurant costing and management platform.
- Rytcost: Worked on both React.js web applications and React Native + Expo mobile applications for a civil and construction Earned Value Management (EVM) platform.
- Nursery-management: Developed web and mobile applications for an Indo-American plant nursery, implementing customized features and workflows based on the company's internal business requirements.

Dhiway Networks Pvt Ltd

Dec 2025 – oct 2026

Software Developer

Bengaluru, Karnataka

- Developed and enhanced web applications using React, collaborating with client teams to understand requirements and deliver effective solutions.
- Handled support requests and resolved real-time application issues, ensuring smooth functionality and timely resolution of client requirements.

Fyle Technologies

Dec 2024 – June 2025

Frontend Intern

Bengaluru, Karnataka

- Completed a 6 month internship at Fyle technologies as a frontend intern.
- Migrated complex UI pages of Fyle web app from AngularJS to Angular 19 (which was latest at that time), improving maintainability and performance.
- Developed automated end-to-end tests using Playwright to ensure bug free execution post migration

Projects

Github User Search ([Hosted app](#) | [github](#)) | *Nextjs+React,ShadCN+Tailwind UI*

August 2024

- * Built a React/Next.js app to search GitHub users, view profiles, and explore repositories with pagination.
- * Implemented recent search history, error handling, and a responsive UI using Zustand for state management and ShadCN components.

Todo List ([Hosted app](#) | [github](#)) | *Angular+Typescript, PrimeNG*

July 2024

- * Developed a dynamic task management application using Angular, featuring task prioritization, filtering, along with intuitive user experience using **PrimeNG** components and Tailwind CSS.
- * Implemented search and filter functionality for tasks by name, priority, and due date utilizing PrimeNG components for better UX.

Self Portfolio ([Hosted app](#) | [github](#)) | *Angular+Typescript, Tailwind CSS*

August 2024

- * Developed a personal portfolio website using Tailwind CSS Angular.
- * Showcased projects, skills, and contact information with an intuitive user interface.
